

Idera Pharmaceuticals to Present at Cowen's 32nd Annual Healthcare Conference

February 28, 2012 2:06 PM EST

CAMBRIDGE, Mass., Feb 28, 2012 (BUSINESS WIRE) --Idera Pharmaceuticals (NASDAQ: IDRA) today announced that Sudhir Agrawal, D. Phil., Chairman and Chief Executive Officer of Idera, will present a company overview at the Cowen and Company 32nd Annual Healthcare Conference on March 7th 2012, at 10:00 am EST in Boston, Massachusetts.

A live audio webcast of the presentation will be available in the Investor section of Idera's website: www.iderapharma.com. An archived version will also be available on the Company's website after the event for a limited time.

About Idera Pharmaceuticals, Inc.

Idera Pharmaceuticals applies its proprietary Toll-like Receptor (TLR) drug discovery platform to create immunomodulatory drug candidates. The Company's TLR-targeted candidates are being developed to treat autoimmune and inflammatory diseases and cancer, and for use as vaccine adjuvants. Additionally, the Company is advancing its gene-silencing oligonucleotide (GSO) technology for the purpose of inhibiting the expression of disease-promoting genes.
