### ***About Idera Pharmaceuticals***

Idera Pharmaceuticals is a clinical-stage patient focused biopharmaceutical company developing novel therapeutic approaches for the treatment of cancer and rare diseases. Idera's proprietary technology involves creating novel nucleic acid therapeutics. Idera's immunotherapy approach is based on the modulation of Toll-like receptors (TLRs). In addition to its TLR modulation programs, Idera is developing gene silencing oligonucleotides (GSO) technology that it has created to inhibit the production of disease-associated proteins by targeting RNA.
